

AWALIE, NAPHIER B.

Zamboanga City, Philippines | naphiera@gmail.com | +63-953-293-5565 | naphier-portfolio.vercel.app/ | github.com/bagatata05

PROFESSIONAL SUMMARY

Detail-oriented Information Technology student with hands-on experience in full-stack web development, network infrastructure, hardware assembly, and IT support. Skilled in modern web technologies including React, Next.js, Laravel, and Node.js. Demonstrated ability to diagnose technical issues, configure systems, and deliver practical solutions through internships and independent projects. Seeking roles in Web Development, Full Stack Development, IT Support, or Network Technology.

TECHNICAL SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, PHP, React, Next.js, Node.js, Laravel, Tailwind CSS

Databases & Tools: MySQL, phpMyAdmin, Git, Figma, Canva

Hardware & Networking: PC Assembly & Troubleshooting, Network Cabling (LAN/Fiber), CCTV Installation, OS Installation & Configuration, Arduino UNO, ESP32, Sensor Integration

Productivity: Microsoft Office (Word, Excel, PowerPoint)

WORK EXPERIENCE

IT Intern (OJT 2) | Digital Innovation Solution (DIS) 2025

- Performed fiber optic splicing and termination for network installations
- Installed and configured CCTV surveillance systems and cabling
- Assembled and configured desktop PCs and installed operating systems
- Performed network setup, IP configuration, and basic troubleshooting
- Completed structured cabling and wiring tasks across client sites

Practicum Intern (OJT 1) | Zamboanga Peninsula Polytechnic State University 2024

- Performed network cabling, LAN crimping, and structured cable management
- Assisted in PC assembly, OS installation, and software configuration
- Diagnosed and resolved internet connectivity and hardware issues
- Provided daily IT maintenance and end-user technical support
- Developed basic websites using HTML, CSS, and server-side scripting

Work Immersion Intern – IT & Security Systems | LM Hotel 2023

- Assisted in the installation and wiring of CCTV surveillance systems
- Performed basic maintenance and cable management for security infrastructure
- Gained practical experience with surveillance hardware and security system setup

PROJECTS

OBMS – Online Business Management System

- Developed a full-featured online business management system for handling operations and records

BudgetBuddy – Mobile App (Flutter)

- Built a personal finance tracking mobile application using Flutter and Dart

QuickNotes – Mobile App (Flutter)

- Created a note-taking mobile app with Flutter for fast note management

Freelance Frontend Project (React, TypeScript, Tailwind CSS)

- Designed and built a responsive frontend interface for a client using React, TypeScript, and Tailwind CSS

EDUCATION

Bachelor of Science in Information Technology — Zamboanga Peninsula Polytechnic State University 2023 – Present

Senior High School – TVL ICT Track — Zamboanga City High School – Main 2021 – 2023

CERTIFICATIONS & TRAINING

- Certificate of Completion – Practicum OJT 1 & OJT 2
- Certificate of Completion – Digital Innovation Solution (DIS)
- Certificate of Completion – Introduction to Networking
- Microsoft Digital Literacy – December 2023
- Certificate of Attendance – AI and Machine Learning Seminar, Google Developer Group, April 2025

ACHIEVEMENTS

- PC Assembly Competition Participant – May 2024
- Work Immersion Certificate of Completion – 2023
